2 - What do you believe to be the greatest strengths of this course and of this instructor's teaching?

Return Rate 8/28 (28.57%)

- I loved how much she knows about technology and integrating it into teaching.
- Communication with Dr. Williams was clear and concise. Dr. Williams had patience with students struggles with technology and explained the material well.
- This course was awesome, and totally changed my perspective about technology in the classroom. Additionally, I felt that I learned more about technology in this class than I was learned on the online module. I felt inspired every class period, and I plan on using just about everything I learned in my own classroom.
- Knew a lot about the technological aspect of this class. Together the two made a good team
- The incorporation of technology in every aspect was absolutely superb and helpful for my future classroom teaching style. Dr. Williams is all about pushing students to think outside the box as future educators which is refreshing and truly helpful.
- She was extremely knowledgeable about the content and her enthusiasm showed.
- Yes
- Mia is very passionate about technology and teaching. Her enthusiasm and knowledge of the material being taught is infectious as she tries to instill passion in her students. She has a fun personality that students love and can connect with. Her and Suzette work brilliantly together. They are an outstanding team that brings students to life in their classroom.

3 - What constructive comments can you provide to assist the instructor to improve his/her teaching?

Return Rate 7/28 (25%)

- Keep doing what you're doing!
- The only big thing was that it felt like there was not have enough time set aside for the final argument unit project. I felt like another week to work on it would have been perfect.
- You rock. Thank you for everything you did this semester, I really appreciated your methods, attitude and opinions about modern education.
- I liked this class
- N/A
- There were days where I felt it was repeated content the first two months, and it wasn't necessary for me to go because I was not learning anything extra. As the semester went on the class lesson felt different and more productive.
- Great Class
